

American Robotics Academy is looking for instructors to teach after-school enrichment programs, 2-3 hours per day. We teach children about robotics technology using all LEGO materials. 6-12 hours per week at public elementary and private schools in the Greater Houston Area. Compensation is \$16 - \$20 per hour. Will Train. You must be available weekdays between 2-6pm. Weekend work is also available. We are looking for highly motivated, energetic, outgoing people who love working with children. For those who currently teach, or previously taught, WE WANT YOU! Our curriculum allows teachers to have a very hands on approach that may be otherwise restricted. We subscribe to a professional image dress code. Our teachers are "ambassadors" to our organization and the children look up to them as role models. We do a complete background check.

Must:

- Have reliable transportation
- Own a cell phone
- Be available a minimum of 3 days a week between 2-6 pm, or anytime on the weekend.
- Have good communication, leadership and organization skills
- Be dependable and reliable
- LOVE KIDS!

Preferred:

- Engineering experience
- Lego experience
- Teaching experience
- Available 5 days a week between 2-6 pm

WHAT WE WANT FROM YOU:

With your resume, please submit a paragraph stating how these hours can work with your present schedule, and why you find this position of interest. If you are not available all days of the work week, but love robotics, kids, and teaching, we would still like to hear from you.
